

## Key topics update for October/November 2021:

### Collaborative Action Updates:

#### Early Childhood System of Care Action Team (formerly AT 1.1)

**Scope:** Children in Brown County ages 0 to 3 served by one of the three healthcare systems with likely referral to Birth to 3

**Team Type:** Continuous Improvement

**Focus:** Process improvement for referrals to Birth to 3 with a specific focus on improved communication with PCP and Bt3

**Current Work:** Team is paused and will likely be closed

**Need:** Nothing currently

#### Community Online ASQ System (COAS) Action Team

**Scope:** Children in Brown County ages 0 to 5

**Team Type:** System Design

**Focus:** Creating a system for real-time sharing of ASQ's electronically

**Current Work:** Updating the requirements document and assessing possible vendor solutions (Help Me Grow and WISHIN)

**Need:** Seeking funding to support navigator role, ASQ Enterprise System and increased screens

#### Supporting Our Students Action Team

**Scope:** 4k to 12<sup>th</sup> grade students in Brown County served by non-profit partners (after school, childcare providers etc.) with a focus on improving trauma informed care practices and social emotional wellness of students

**Team Type:** Information Sharing/Resource Sharing

**Focus:** Researching and sharing resources related to trauma informed care of SEL

**Current Work:** Scheduling mini training sessions for the team and updates to the resource list

**Need:** Nothing currently

## Graduation Task Force Action Team

**Scope:** 6<sup>th</sup> – 12<sup>th</sup> grade students in Brown County

**Team Type:** Design/Continuous Improvement

**Focus:** To increase the high school graduation rate and decrease equity gaps

**Current Work:** Launch of the new Y Achievers program at Bay View Middle School (HSSD) and Lombardi Middle School (GBAPS) plus possibility of launch at one school in the GRACE System

**Need:** On-going funding to support current mentoring organizations (BBBS, BGC and Y Achievers) as well as funding to support new mentoring options

**Current matches for this school year = 173/280**

## FASFA+ Action Team

**Scope:** High school seniors in Brown County

**Team Type:** Information Sharing

**Focus:** To increase the FAFSA completion rate and decrease equity gaps in post-secondary enrollment

**Current Work:** Continuous updates to the FAFSA+ Resource List

**Need:** Nothing currently

**Current FAFSA completion rate in Brown County for current HS seniors:** Down 5.7% to LY (new cycle through end of October)

## Digital Access Action Team

**Scope:** **Primary scope is** Brown County k-12 students/families plus post-secondary students (access to internet enabled device, internet service and technical skills to use both effectively) with secondary scope stretching to the NEW North

**Team Type:** Information Sharing

**Focus:** Sharing of information/resources, communication of resources, and discussion of needs

**Current Work:** Sharing information on the NEW North Broadband Speed Test and working to collect data on technology support options/needs for community members

**Need:** Nothing needed at this time

## COVID Response Team

**Scope:** Open invite to community-based organizations to share what needs are being served and what needs are unmet in response to the Covid-19 pandemic

**Team Type:** Information Sharing

**Focus:** Bi-monthly meeting cadence with guest speakers/highlighted need being served

**Current Work:** This time is solely focused on information sharing within the team meeting

**Need:** Nothing needed at this time

## 3<sup>rd</sup> Grade Reading Equity Planning Team

**Scope:** Planning for 3<sup>rd</sup> Grade Reading Equity Summit to be held in October 2022

**Team Type:** Planning Team

**Focus:** Several working teams preparing for the summit

**Current Work:** Monthly full team meetings, weekly meeting for Community Listening Session Sub-Team and every other week meeting with Sarah Sudgren

**Need:** ABC Budget approval for funds to support the Community Listening Sessions (testing to start in December and then majority of sessions to take place in the first half of 2022)

## Team Type Descriptions:

**Continuous Improvement:** This type of team works to improve an existing process

**System Design:** This type of team works to design a new system that does not currently exist

**Information Sharing:** This type of team works to share information within the team and often with the population it serves

**Resource Sharing:** This type of team works to share resource information within the team and can at times seek out cost sharing opportunities for a shared resource such as a training session

**Planning Team:** This type of team works to plan for a one-time event

## Brown County COVID-19 Collective Response Team

- The team is now meeting every other month in order share information about services offered in response to the Covid-19 pandemic as well as to share unmet needs in the community

- Resource concerns that were shared at the September meeting were staffing shortages and increase in rent for some low income community members
- Unite Us was the guest speaker and introduced the attendees to the Unite Us Referral Platform for the social sector

### 3<sup>rd</sup> Grade Reading Equity Summit Planning Team

- The Summit is planned for October of 2022 and will be held at the Resch Expo Center
- This is a joint effort between the Brown County Library and ABC
- Two ABC Board Members are serving on the planning committee, Sister Melanie of Casa Alba and Carla of the Wrightstown School District

### Evidence-Based Decision Making

What?	Now What?	So What?	Needs:
Outcomes 2-4 updated for next dashboard release.	Update Outcome 5  (1 on hold, 6 not measured)	This information is collected by StriveTogether for the annual Civic Infrastructure Assessment and these our measures indicate progress on our mission.	Board Backbone Committee input on reconfiguration of Outcomes  (meeting expected before December 7 <sup>th</sup> Board Meeting to discuss)
Haley and Nabila collected data for two <a href="#">Systems Indicators</a> : teacher diversity and school climate/discipline	Report on Civic Infrastructure Assessment and add to ABC's website	This has become part of StriveTogether's theory of action.  These measures reflect the local systems beyond outcomes related to individuals on our <a href="#">dashboard</a> . Emphasis on racial equity.	None.
Haley and Nabila attended Tableau conference sessions week of 11/8	Learnings can be used in ABC's visuals.	Sharpened the saw. Honing their skills in VISTA year 2.	None.
ABC Resource and Response Map enhancement paused, and tech subscriptions cancelled.	We have this tool available in case it serves a future use case.  Goal is to develop a social network visual to demonstrate the depth and breadth of ABCs partnerships in Brown County as that was a novel portion of the work.	Determined this work overlapped too much with existing community efforts, viz. 211, ADRC, Crisis Center, 211 Counts WI	None.

Added Employment Data to Outcome 5 contributing indicators.	None.	Shows the following... <ul style="list-style-type: none"> <li>Count of employees in local industries</li> <li>Industries ranked by pay</li> <li>Racial/ethnic makeup of each industry</li> </ul>	None.
---	-------	--	-------

### Community Information System (CIS)

<b>What?</b>	<b>Now What?</b>	<b>So What?</b>	<b>Needs:</b>
SysLogic, Bellin, and Christian met to learn about WISHIN and the role this state Health Information Exchange could play in CIS moving forward.	Since Chris Elfner is on WISHIN's board, he is setting up a meeting with Bellin, SysLogic, CIS, and WISHIN.	WISHIN's data footprint is growing. There's the possibility that some data would come from WISHIN to CIS (similar to DPI on behalf of school districts) to be more efficient.	<p>This concept depends on health system relationships with WISHIN and their willingness to submit data to WISHIN. WISHIN / DHS is offering incentives ~\$150,000 to health systems to add more data to WISHIN.</p> <p>The stronger our health systems' data sharing is with WISHIN, the more valuable a connection to CIS would become.</p>
<p><b>Roster Sharing:</b> Christian trained community org and managed care org contacts on how to submit their rosters to CIS. CP uploaded there first roster to CIS! Connection to WISHIN underway to allow for Lakeland Care and Inclusa rosters to be sent.</p>	<p>ASPIRO and Curative working on releases to allow for the upload of their rosters.</p> <p>Getting specific on reporting format needed by stakeholders:</p> <ul style="list-style-type: none"> <li>Community orgs will know which MCO their client is served by and who the case manager is</li> <li>Health systems will "flip the switch" on EPIC access based on the rosters they</li> </ul>	<p>These pieces of information save time on...</p> <ul style="list-style-type: none"> <li>Requesting EPIC access from health care</li> <li>Determining who is client's PCP</li> <li>Determining who MCO case manager is</li> </ul> <p>They also allow for real-time, monthly changes and accurate info.</p>	None.

	<p>receive to allow orgs to access relevant info re: patients</p> <ul style="list-style-type: none"> <li>• MCO/Community Orgs will know PCP name and health system</li> </ul>		
<p>1x1s now held with Bellin, Aurora, and HSHS/Prevea Behavioral Health, Foundations for Health and Wholeness, and Connections for Mental Wellness</p>	<p>Legal agreement needs to be established to allow for sharing of mental health data to CIS.</p> <p>Need to determine if sharing substance misuse data is allowable under HIPAA and by health systems.</p>	<p>We have medical care data; behavioral health data will paint a more complete picture of health in Brown County.</p> <p>Data in mind currently:</p> <ul style="list-style-type: none"> <li>• Patient demographics</li> <li>• Visit information (diagnoses, frequency, treatment)</li> <li>• Referral data</li> <li>• Provider information (degrees, licensures) to get at workforce gaps</li> </ul> <p>If any of these fields will be gathered from existing CIS health data, age range will need to be expanded to all ages.</p>	<p>We need a health system to lead the way on the development of this agreement, which will serve as a template for other two health systems.</p> <p>Unfortunately, existing CIS agreements won't suffice.</p>
<p>Mary has completed half of Promising Practices Report 2 (geographic mobility/school moves)</p>	<p>Erika is creating community-facing reports for publication in Canva. Mary is creating longer technical reports.</p> <p>Three meeting options scheduled for January/February for superintendents and health care approvers to preview reports—kick off the review for publication process outlined in legal.</p>	<p>This has been a journey 6 years in the making! Combining health care and school data to arrive at novel insights regarding Brown County students 4K – Grade 3.</p>	<p>Engagement from superintendents and health care reps in these meetings.</p>

### **Office Space Update**

- Conference Room tables, donated from KI, were delivered on 11/2 and 11/9.
- Conference Room technology was ordered in October.

### **Community Engagement**

- In the last month, our page reach on Facebook has increased by 59.4%. One of our most popular posts was for the ABC Contest Competition, receiving almost 30 reactions and 443 views. On LinkedIn, our page views have increased by 77%. We have also strived to become more active on Twitter. This has led to an increase in followers, totaling 463.
