

LETTER OF SUPPORT

July 27, 2020

Dear Department of Public Instruction Review Committee,

We have met with Achieve Brown County and have discussed its data request entitled "Baseline Data for Childhood Health and Mobility in Brown County." We fully support the implementation of this project.

We understand this data request will require the transfer of student-level data on Brown County students from the Department of Public Instruction to Achieve Brown County and Brown County United Way's co-owned Community Information System (CIS) and that this is permissible under the studies exception within FERPA.

We have a Data Processing and Services Agreement and Data Use Agreement executed with Achieve Brown County and Brown County United Way to ensure the appropriate data security and privacy protection of our student information during the storage and use of this data.

Achieve Brown County, in partnership, will share summary results with each district to support the continuous work of improving outcomes for all students.

Sincerely,

[SIGNATURE PAGE FOLLOWS]
