Collaborative Action Updates: December 2021/January 2022

Early Childhood System of Care Action Team (formerly AT 1.1)

Scope: Children in Brown County ages 0 to 3 served by one of the three healthcare systems with likely referral to Birth to 3

Team Type: Continuous Improvement

Focus: Process improvement for referrals to Birth to 3 with a specific focus on improved communication with PCP and Bt3

Current Work: The team is now closed. Process improvement work on the referral process to Bt3 will happen individually at each healthcare system. Thank you to the Action Team Members who have contributed to this work over the last five years. We appreciate you!

ABC will continue to focus on the Early Childhood System of Care and increasing ASQ usage through the Community Online Ages and Stages Questionnaire (COAS) Action Team.

Need: Nothing at this time

Community Online ASQ System (COAS) Action Team

Scope: Children in Brown County ages 0 to 5

Team Type: System Design

Focus: Creating a system for real-time sharing of ASQ's electronically

Current Work: Exploring technical options with Brookes Publishing and Help Me Grow Wisconsin to enhance system design

Need: Seeking funding to support technical pieces such as ASQ Enterprise System and increased screens

Supporting Our Students Action Team

Scope: 4k to 12th grade students in Brown County served by non-profit partners (after school, childcare providers etc.) with a focus on improving trauma informed care practices and social emotional wellness of students

Team Type: Information Sharing/Resource Sharing

Focus: Researching and sharing resources related to trauma informed care, social emotional learning, and culturally & linguistically responsive learning

Current Work: Scheduling mini training sessions for the team and updates to the resource list

Need: Nothing currently

Graduation Task Force Action Team

Scope: 6th – 12th grade students in Brown County

Team Type: Design/Continuous Improvement

Focus: To increase the high school graduation rate and decrease equity gaps

Current Work: Launch of the new Y Achievers program at Bay View Middle School (HSSD) and Lombardi Middle School (GBAPS) as well as a launch at St. Thomas More School in the GRACE System

Need: On-going funding to support current mentoring organizations (BBBS, BGC and Y Achievers) as well as funding to support new mentoring options

Current overall matches for this school year = 238/300

Current Matches Made:

Boys & Girls Club = 160/220

Big Brothers Big Sisters = 12/30

Y Achievers = 66/50 *Now has a stretch goal of 70 matches

FASFA+ Action Team

Scope: High school seniors in Brown County

Team Type: Information Sharing

Focus: To increase the FAFSA completion rate and decrease equity gaps in post-secondary enrollment

Current Work: Continuous updates to the FAFSA+ Resource List and planning for January meeting with school district representatives including a survey

Need: Nothing currently

Current FASFA completion rate in Brown County for current HS seniors: Down 6.7% to LY (new cycle through end of November)

Digital Access Action Team

Scope: Primary scope is Brown County k-12 students/families plus post-secondary students (access to internet enabled devise, internet service and technical skills to use both effectively) with secondary scope stretching to the NEW North

Team Type: Information Sharing

Focus: Sharing of information/resources, communication of resources, and discussion of needs

Current Work: Sharing information on equitable technology coming to city and rural areas (access and affordability) and continuing to update resource document

Need: Nothing needed at this time

COVID Response Team

Scope: Open invite to community-based organizations to share what needs are being served and what needs are unmet in response to the Covid-19 pandemic

Team Type: Information Sharing

Focus: Bi-monthly meeting cadence with guest speakers/highlighted need being served

Current Work: We are working to increase the attendance by recruiting additional attendees

Need: Nothing needed at this time

Reading Success Summit Planning Team

Scope: Planning for the Reading Success Summit to be held in October 2022 in partnership with the Brown County Library

Team Type: Planning Team

Focus: To create awareness and a call to action in the community to reverse the declining 3rd grade reading proficiency outcome

Current Work: Monthly full team meetings, weekly meeting for Community Listening Session Sub-Team and every other week meeting with Sarah Sugden

Need: Seeking funds to support the Community Listening Sessions (testing to start in January and then majority of sessions to take place in the first half of 2022)

Unite Us Convener Role

Focus: Engaged with Unite Us in helping to support the launch of the platform

Current Work: Inviting partners to events, supporting social media posts, answering questions of partners who are interested in the platform, and attending Unite Us events

Need: Nothing currently

Funds earned so far: $10,000

Team Type Descriptions

Continuous Improvement: This type of team works to improve an existing process

System Design: This type of team works to design a new system that does not currently exist

Information Sharing: This type of team works to share information within the team and often with the population it serves

Resource Sharing: This type of team works to share resource information within the team and can at times seek out cost sharing opportunities for a shared resource such as a training session

Planning Team: This type of team works to plan for a one-time event

Evidence-Based Decision Making

What?	Now What?	So What?	Needs:
ELA, Science, and Math test scores have been overhauled on website. Easier to use and better data from Confidential DPI Datasets. Cleaning and visualization of Spring 2021 test score data underway.	We are going to determine which portion of students took the Forward Exams to help us interpret the trends we'll see in ELA, Math, and Science for 2021.	2021 is the first year of test data available during COVID-19.	
Final dashboard (2020 numbers) update is ready.	Bring to Executive Committee Q1 of 2022.	This year we've added a slide with trends year-over-year for each outcome for context.	Approval to share broadly.
FAFSA trends are visualized to compare years and schools for full FAFSA cycle & across years.	Share with FAFSA+ Action Team.	Previous data was a simple bar graph comparing this month to this month last year.	
Dashboard Recommendation visual created.	Share with Executive Committee.	Follow up to Backbone Committee presentation on December 7th Board Meeting.	Dialogue and approval and/or recommended edits.

Community Information System (CIS)

What?	Now What?	So What?	Needs:
Rough draft of student mobility study is complete.	EBDM team will peer edit. Mary will begin impact of health on attendance report.	On track for Jan/Feb meeting with superintendents and health care CIS Leadership Team reps.	
Draft data fields determined for Connections for Mental Wellness sprint.	Bring to Bellin, Advocate Aurora, and HSHS/Prevea team members for edits, then compliance/legal.	Gaining traction on mental health data. Working through the details.	**Health care support in two ways:** 1. Our hope is to expand current patient information in CIS to all ages so we can match this data with mental

			health data (avoiding duplication). 2. Our hope is that existing CIS legal agreements will cover behavioral health/substance misuse data.
WIHIN now connected to CIS via our manual portal to submit rosters for Lakeland Care and Inclusa.	Finalize reporting requirements via 1:1 meeting per org type with SysLogic.	In the thick of it and starting to get to the point of outputting the intended roster sharing reports as part of this data sprint.	
Developing data management fee model for CIS (as outlined in legal agreements).	Determine CIS operating costs. Determine reasonable fees.	CIS is becoming fully operational. Demonstrates willingness of CIS data partners to pay nominal fees for value the system and staff are providing based on conversation with CIS Leadership Team.	

Communications

- In the last month, our most successful Facebook post was a part of the "Where are they now?" series, featuring past Americorps VISTAs and recognizing their success. This post reached 238 audience members and received 16 likes and reactions. On LinkedIn, our page reactions increased by 40%. We have also strived to become more active on Twitter. This has led to an increase in followers, totaling 465.
- Continue to work on the final report from the research done under the Promising Practices Grant.
