

## SPONSORSHIP OPPORTUNITY

# READING FOR THE FUTURE EARLY LITERACY CONVENING

Join us as a Reading for the Future Early Literacy Convening Sponsor and lead the way in empowering our entire community to come together, learn from each other, and work together to improve reading outcomes for young people in Brown County.

Hosted twice per year, community members and partners from early childhood education, k-12 education, nonprofits, resource centers, healthcare, business, and government will come together to deepen understanding of the literacy crisis, learn about system change tools, the latest data, and what real people are witnessing about literacy in our community. Then attendees will connect, problem solve and commit to actionable steps to improve how our community supports young people to achieve 3<sup>rd</sup> grade reading benchmarks.

## OUR WHY:

In Brown County, only 54% of third graders are reading at grade level by third grade.

**Reading at grade level is one of the strongest predictors of later success. Studies have found that students who do not read at grade level by third grade are four times more likely to drop out of high school than their proficient peers.**

Achieve Brown County launched the Reading for the Future Initiative in 2021 when community partners called for change. Since that time, we've held a Reading Summit, talked with parents about raising young readers, and have launched projects and convened action teams, taking a community-wide approach to solve this issue.
